The screenshot shows the EtherWAN web interface. At the top, there is a navigation bar with 'Home', 'Devices', 'Batch', 'Group', 'Events', and 'Settings'. Below this, the interface is split into two main sections: 'Device List' and 'Topology'.

Device List: A table with columns for IP, System Name, and Group. The table contains 10 rows of device information. Below the table are 'Previous' and 'Next' buttons, and a page indicator showing 'Page 1 of 3'.

Topology: A network diagram showing various nodes connected in a mesh-like structure. A legend indicates that green circles represent 'Online' devices, white circles represent 'Offline' devices, and red circles represent 'Event' devices.

Latest Events: A table showing recent events with columns for Acknowledged, ID, Severity, Time, Service, Node, and Message.
